

SFP optical module NRZ price quote

Article Overview

SFP NRZ optical modules typically range from \$20 to \$150 per unit depending on speed, reach, and vendor.

Pricing Overview

SFP (Small Form-Factor Pluggable) modules using NRZ (Non-Return-to-Zero) signaling are widely used for 1G, 10G, and 25G Ethernet connections. Prices vary based on data rate, transmission distance, and vendor compatibility. For example, 1G SFP modules for short-range multimode fiber can cost around \$20-\$40, while 10G SFP+ modules for single-mode long-range applications may range from \$80-\$150 per unit . Higher-end or brand-specific modules, such as Cisco or Juniper, may be priced higher .

Module Types and Compatibility

NRZ SFP modules are available in multiple types:

- 1G SFP: Standard Gigabit Ethernet, multimode or single-mode fiber.
- 10G SFP+: Enhanced 10 Gigabit Ethernet, supports longer distances.
- 25G SFP28: Higher-speed NRZ modules for data center applications. These modules are hot-pluggable and compatible with switches, routers, and network interface cards, often following MSA (Multi-Source Agreement) standards . Third-party vendors offer affordable alternatives to OEM modules without compromising quality .
