

Singapore Power Distribution Automation Companies

Article Overview

Singapore hosts several leading companies specializing in power distribution automation, including Power Automation (SP Group), Schneider Electric Singapore, Sunwatt Corporation, and MINs Control System Solutions.

Key Companies and Their Capabilities

1. Power Automation Pte Ltd (PA) Power Automation, now a wholly-owned subsidiary of SP Group, is a major player in smart grid, substation automation, and power system control in Singapore and Southeast Asia . Their offerings include:

- Supervisory Control and Data Acquisition (SCADA)
 - Energy Management Systems (EMS) / Advanced Distribution Management Systems (ADMS)
 - Substation Automation Systems (SAS)
 - Smart Metering and Metering Solutions
 - Remote Terminal Units (RTUs)
 - Protection Systems
 - Digitalization solutions (e.g., partial discharge monitoring, robotic inspection)
 - Renewable energy solutions (microgrid management, battery energy storage)
- PA provides turnkey solutions, from design and engineering integration to commissioning and support, and has been involved in Singapore's next-generation distribution control centers and smart substation initiatives . 2. Schneider Electric Singapore Schneider Electric is a global leader in energy management and automat...
