

Specifications of 11kW motor distribution box

Overview

Power: 11kW at 400V or 690V 50Hz. Full Load Current with links in STAR (690V 3ph): 11.87 when mains connected at 50Hz. ENVIRONMENT : NO CORROSIVE/EXPLOSIVE GAS, NO STEAM OR CONDENSATION, MINIMAL DUST. OF LEAD WIRES : 6 *Value indicates representative value, not guaranteed value. QUANTITYMFG. With cast iron frame, flexible mounting, solid and whole feet, and lower noise levels and operating temperatures, the W22 motors are perfectly suitable for a great variety of industrial applications offering high efficiency. The search for excellence has resulted in the diversification of the business, adding to the electric motors products which provide from power. To support planners, we provide specification texts for products and systems of building technologies, electric power distribution, industrial switching technology, drives, automation and safety technology from the Siemens product portfolio. WEG W22 Cast Iron Premium Efficiency (IE3) 11kW 2 Pole 3 phase AC Motor.
