

Sri Lanka Composite Cable Tray Models and Specifications

Article Overview

Composite cable trays in Sri Lanka are available in various materials and designs, including perforated, ladder, trunking, and floor trunking systems, with international standard compliance and multiple accessories for professional installation.

Types of Cable Trays

- Perforated Cable Trays
 - Designed for lightweight and ventilated cable management.
 - Slots on the bottom improve airflow and prevent overheating of cables.
 - Produced using CNC laser cutting and bending technology for precision.
 - Easy assembly with nut and bolt connections, with joint pieces often provided free of charge .
- Ladder Cable Trays
 - Suitable for heavy-duty installations and long cable runs.
 - Provide excellent support and ventilation for high-capacity cables.
 - Available in various materials including steel, aluminum, and composite alloys .
- Trunking and Floor Trunking Systems
 - Ideal for office, commercial, and industrial environments where cables need to be concealed.
 - Can be installed along walls, floors, or ceilings.
 - Compatible with a wide range of accessories for bends, tees, and junctions
