

Sri Lanka Micro-Module Data Center Manufacturer

Article Overview

Magline Pvt Ltd, DCL Engineering, and OREL IT are key providers of modular and micro-module data center solutions in Sri Lanka.

Key Manufacturers and Providers

Magline Pvt Ltd is a prominent manufacturer of modular data center solutions, offering server rack systems, low voltage power distribution panels, and enclosures built to international standards such as IEC 61439. Their products include wall-mounted and floor-standing racks with IP-54/55/65 protection, zinc-coated steel structures, and customizable configurations suitable for industrial and commercial applications. DCL Engineering (Private) Limited specializes in ICT technology and provides comprehensive data center solutions, including structured cabling, active network solutions, and modular infrastructure support. Their focus on innovative technologies supports cloud solutions and scalable data transfer requirements. OREL IT has pioneered the adoption of modular data centers in Sri Lanka, offering flexible, energy-efficient, and resilient infrastructure. They provide high-performance systems, advanced energy management, and built-in redundancy, making them suitable for private cloud deployments and scalable micro-module solutions.

Market Context

Sri Lanka's data center market is growing rapidly, with an installed IT load of 2.5 MW in 2025, projected to reach 5.65 MW by 2030 at a CAGR of 17.71%. Major operators...
