

Standard dimensions of household electrical distribution boxes in the Middle East

Article Overview

Middle Eastern residential distribution boxes typically range from 200×200×120 mm to 800×600×300 mm for wall-mounted units, with freestanding cabinets reaching up to 2200×1800×600 mm, depending on capacity and application.

Wall-Mounted Distribution Boards

For residential homes in the UAE and GCC, wall-mounted DBs are the most common. Typical dimensions for these units are:

- Height: 200 mm to 800 mm
 - Width: 200 mm to 600 mm
 - Depth: 120 mm to 300 mm
- These sizes accommodate single-phase or three-phase systems, with space for MCBs, RCCBs, and RCBOs, while allowing for proper wire routing and future expansion. Compact designs often feature curved edges, magnetic locks, and cable management systems to improve aesthetics and usability.

Freestanding or Floor-Standing Cabinets

For larger residential complexes or high-demand areas, freestanding DBs are used. Typical dimensions include:...
