

Taiwan s Excellent Low-Voltage Switchgear Complete Sets of Equipment

Article Overview

Taiwan offers high-quality low-voltage switchgear complete sets that combine safety, reliability, and intelligent control for industrial, commercial, and utility applications.

Overview of Taiwanese Low-Voltage Switchgear

Taiwanese manufacturers provide complete low-voltage switchgear solutions designed for AC 50Hz systems with rated voltages up to 660V. These systems are widely used for power generation, transmission, distribution, and equipment control in factories, commercial buildings, ports, hotels, and industrial plants (Liyuan Power Equipment) . Products are engineered to ensure high electrical performance, long service life, and operational safety, often integrating intelligent instruments for networked management and monitoring (TECO Corporation) .

Key Product Types

- GGD Type AC Low-Voltage Distribution Cabinets: Suitable for 380V systems with rated currents up to 3150A, offering high breaking capacity, thermal stability, and flexible electrical schemes. Ideal for power plants, substations, factories, and mining enterprises (Shenheng Power Equipment) .
- GCK Series Withdrawable Switchgear: Designed for AC three-phase four-wire or five-wire systems, commonly used in generators, metallurgy, petrochemical, and light industry production lines. Supports intelligent management via communication interfaces (Liyuan Power Equipment) ...
