

Tariff Costs for SD-WAN Equipment 1 6T

Article Overview

SD-WAN equipment costs, including high-capacity 1.6T devices, typically range from \$1,500 to \$12,000 per site for hardware, with monthly recurring costs of \$100-\$500 per site depending on features and bandwidth.

Hardware Costs

High-capacity SD-WAN devices, such as 1.6T appliances, fall into the premium hardware category, with prices generally between \$5,000 and \$12,000 per unit, depending on vendor, throughput, and integrated features like advanced security or WAN optimization . These devices are designed for large data centers or headquarters requiring high throughput and low latency.

Recurring Costs

Monthly recurring costs (MRC) include software licensing, management, and optional managed services, typically ranging from \$100 to \$500 per site, with premium deployments potentially exceeding \$1,000 per month . Managed services add \$125-\$375 per site per month, covering monitoring, updates, and support . Bandwidth requirements significantly influence pricing; higher throughput or multiple transport types (fiber, LTE/5G, satellite) increase costs .

Cost Drivers

Key factors affecting SD-WAN costs include:...
