

The largest optical cable factory

Article Overview

Prysmian Group operates the world's largest fiber optic cable manufacturing network, with 108 production plants globally.

Prysmian Group, headquartered in Italy, is recognized as the largest fiber optic cable manufacturer in the world due to its extensive global operations, comprehensive product portfolio, and high production capacity . The company produces a wide range of optical fibers, fiber-optic cables, and connectivity solutions, serving markets across Europe, North America, South America, and Asia . Prysmian's facilities support large-scale projects, including submarine cables, 5G infrastructure, and high-capacity long-haul networks .

Global Manufacturing Scale

Prysmian owns 108 manufacturing plants worldwide, making it the largest in terms of production footprint . These factories produce turnkey systems for telecommunications and energy sectors, emphasizing sustainability through recycled materials and eco-friendly processes . The company's high-capacity plants enable it to meet the growing global demand for fiber-optic cables, which is projected to reach billions of fiber-kilometers by 2025 .

Other Major Players

While Prysmian leads in scale, other significant manufacturers include:

- Corning Inc. (U.S.): Pioneer in optical fiber technology, known for high-purity glass...
