

Types of ODF disks in optical distribution boxes

Article Overview

ODF disks in optical distribution boxes come in wall-mount, rack-mount, floor-mount, and modular types, each designed for specific fiber capacities and deployment environments.

Wall-Mount ODF Disks

Wall-mount ODFs are compact, lightweight enclosures ideal for small-scale fiber terminations in offices, residential buildings, or areas with limited space. They typically support 12–96 fibers and are easy to install on walls, making them suitable for FTTH distribution points or small telecom rooms. Their slim profile (
