

Visio Cable Management Plugin

Overview

Features include a BOM Generator, Cable Fill Calculator, Stencil Navigator, and other vendors' shapes. Download our Visio Design Tool, or stand-alone shape library (typically top and front view, with an occasional side view). See: PTC Creo Cabling, AutoCAD Electrical, SolidWorks Electrical and many more. These packages offer fantastic tools which help us create high quality drawings, with minimum effort. Also, the connector ID is typed manually in a text box in Visio next to every port of the devices. For large projects this can be a couple. Need Help?

Visio stencils for copper components, cable management, connected home, and more.
