

Waterproof junction box for power cables

Article Overview

Waterproof junction boxes protect electrical connections from water, dust, and environmental damage, with IP65 to IP68 ratings suitable for outdoor and harsh conditions.

Key Features

IP Ratings:

- IP65: Protects against dust and low-pressure water jets, suitable for general outdoor use like garden lighting or small electrical projects .
- IP67: Fully dust-tight and can withstand temporary immersion in water, ideal for flood-prone areas or poolside installations .
- IP68: Provides the highest protection, capable of continuous submersion up to 10 meters, perfect for underground, marine, or industrial applications .
- Materials:
- ABS Plastic: Lightweight, corrosion-resistant, heat-resistant, and durable for repeated use .
- Polycarbonate: UV-resistant, flame-retardant, and robust against cracking or fading in extreme weather .
- Metal Enclosures (Steel/Aluminum): Offer superior impact resistance and security for industrial or high-traffic areas .
- Design and Installation:
- Screw-down lids with reinforced rubber seals ensure a watertight closure .
- Multiple cable entry points with grommets accommodate various wire diameters (typically 5-15 mm or 6-11 mm) and allow flexible wiring schemes .
- Mounting options include wall, ceiling, or surface installation, with included hardware for secure attachment .
- Applications:...
