

West Asia Optical Cable Splicing Manufacturer

Article Overview

Key suppliers of optical cable splicing equipment for West Asia include AZTEL, JILONG Communications, Fiberik, and AFL, offering fusion splicers, OTDRs, and full fiber optic solutions.

AZTEL Corporation

AZTEL provides professional telecommunication solutions, including fiber optic splicing machines, OTDRs, and test equipment. They manufacture, engineer, and install telecommunication products suitable for network upgrades and new installations. AZTEL emphasizes safety, quality, and timely delivery, and offers training for broadband providers and contractors. While based in Malaysia, their products and services can be supplied to West Asia markets .

JILONG Communications

JILONG, based in China, has over 30 years of experience in optical communication. They manufacture optical fiber fusion splicers, OTDRs, fiber cutters, and measuring instruments, and have contributed to national standards for fusion splicers. JILONG's products are widely used by telecommunications operators and are suitable for deployment in West Asia due to their global distribution network .
