

What are the cable tray options like in Saudi Arabia

Article Overview

FRP/GRP and hot-dip galvanized steel cable trays are generally considered the best options for Saudi Arabia due to their durability, corrosion resistance, and suitability for harsh climates.

Recommended Cable Tray Materials

1. FRP/GRP (Fiber-Reinforced Plastic / Glass-Reinforced Plastic)

- Highly resistant to corrosion, UV radiation, and extreme temperatures, making them ideal for desert and coastal environments .
- Lightweight and easy to install, reducing labor costs and structural load .
- Halogen-free, non-toxic, and low thermal conductivity, ensuring safety and long service life .

• Suitable for both indoor and outdoor applications, including rooftops, industrial plants, and utility corridors .

2. Hot-Dip Galvanized Steel (HDG)

- Provides excellent corrosion protection for outdoor and industrial installations .
- Strong and durable, capable of supporting heavy power and control cable runs in industrial plants, refineries, and infrastructure projects .
- Can be combined with powder coating for additional UV and chemical resistance .

3. Stainless Steel (304 & 316L)

- Recommended for highly corrosive environments, such as coastal areas or chemical plants .
- Offers long-term durability and minimal maintenance, though it is more expensive...
