

# What are the dimensions of a Swiss outdoor electrical distribution box

## Article Overview

Common Swiss outdoor electrical distribution boxes measure around 200×200×150 mm, with variations depending on manufacturer and application.

### Standard Dimensions

Outdoor electrical distribution boxes in Switzerland and Europe are typically designed to meet IP66 or IP67 protection standards, ensuring resistance to rain, dust, and mechanical impact. A commonly available size for stainless steel enclosures is 200 mm width × 200 mm height × 150 mm depth . Other models, such as those sold on Amazon, may have larger dimensions like 300 mm × 180 mm × 400 mm, depending on the intended use and internal components .

### Material and Protection

These boxes are usually made of SS304 stainless steel or powder-coated steel, providing corrosion resistance and durability in outdoor conditions . They feature waterproof seals, lockable covers, and reinforced hinges to prevent unauthorized access and protect internal electrical components .

### Mounting and Usage

Swiss outdoor distribution boxes are designed for wall or pole mounting, suitable for residential, commercial, or public infrastructure applications . They accommodate w...
