

What are the functions of mesh cable trays in Mauritius

Article Overview

Mesh cable trays were introduced in Mauritius through local suppliers such as MRC Wire Products in 1975 and Mesh & Steel in 1998, marking the beginning of organized cable management solutions in the country.

Early Suppliers and Introduction

The use of mesh cable trays in Mauritius can be traced back to MRC Wire Products Ltd, a company incorporated in 1975. MRC Wire Products, part of the Desbro Group of Companies, has been a key player in supplying welded and mesh cable trays for industrial, commercial, and infrastructure projects in Mauritius . Their products offered robust cable management solutions, enabling efficient routing, protection, and organization of electrical cables.

Another significant contributor is Mesh & Steel (M&S), incorporated in 1998. M&S provides a wide range of metal products, including mesh cable trays, to various sectors such as civil, building, railway, environmental, and electrical engineering industries in Mauritius and the surrounding region . Their introduction helped expand the availability and adoption of mesh cable trays for both local and regional projects.

Product Features and Adoption

Mesh cable trays, such as those offered by Cablofil, feature a 90% open structure, which allows for easy visual inspection, reduced cable temperature rise, and minim...
